Mid-West Truckers Association Announces Cancellation of 2022 Mid-West Truck and Trailer Show

***COVID Upsurge Raises Uncertainties for
Both Exhibitors and Attendees***

SPRINGFIELD, IL -- Mid-West Truckers Association (MTA) has announced the cancellation of the 61st Annual MTA Convention and the 2022 Mid-West Truck and Trailer Show, scheduled for February 4 & 5, 2022 in Peoria, Illinois.

"With the sudden increase in COVID cases and the concern for the health of our members and exhibitors, we have reluctantly made the decision to cancel the Show for 2022," said Don Schaefer, Executive Vice President of the Mid-West Truckers Association.

"Our concern and those expressed by potential attendees and exhibitors means cancelling the Truck & Trailer Show is the right decision. We realize the difficulties in producing such an event are compounded due to the recent "perfect storm" of issues brought on by the omicron COVID virant and its effect on staffing capabilities and potential health problems for the most vulnerable. We have seen the devastation this has caused even among our own members."

The MTA Convention and the Mid-West Truck & Trailer Show has long been considered a mid-winter industry highlight, attracting thousands of truck operators, their families and friends to the Peoria Civic Center and surrounding venues. Next year's event has already been rescheduled for February 3 & 4, 2023 in Peoria.
