No, I do not want Travel Protection. Direct Travel has recommended that I purchase travel protection insurance. I have been made aware of the cancellation fees associated with my trip, and I understand that if any unforeseen circumstance (including medical emergencies) should occur and I do not have insurance, I would not be covered which will result in a 100% penalty and forfeiture of deposit held by Direct Travel.

All visitors who are 16 years and over will require proof of being vaccinated to be granted entry to destination. The safety and health of our local population and international visitors remain top priorities for the Turks and Caicos Islands, which is now one of the most inoculated countries in the world with over 70 percent of the population vaccinated. Starting on September 1, 2021, all travelers 16 and older will be required to present proof of vaccination through TCI Assured, a quality assurance pre-travel program and portal, prior to entering the country. Travelers must be fully vaccinated, with the second shot taken over two weeks prior to traveling, or one shot taken over two weeks prior for the Johnson & Johnson vaccine.
