

RECREATIONAL MARIJUANA- Your Rights as an Illinois Employer WEBINAR

Tuesday, November 5, 2019 -- 10:00 AM

 SmithAmundsen

Presented by
Jeffrey A. Risch, Partner
SmithAmundsen

Beginning January 1, 2020, Illinois will allow adults over the age of 21 to possess and consume cannabis. The Cannabis Regulation & Tax Act allows employees broad leeway on what they consume on their "offtime." But the Act also allows employers to adopt and enforce reasonable and nondiscriminatory 'zero tolerance' and drug-free workplace policies to include provisions for drug testing, a ban on the use of smoking, the consumption or the storage of cannabis in the workplace (including the inside of a company vehicle or employee locker).

Although parts of the new law are still unclear and will be clarified by lawmakers before the effective date, it's important that employers understand their rights, but also the rights of employees. This webinar will answer those questions as you prepare for January 1.

Sign-in instructions will be e-mailed to you prior to the webinar. Don't delay in registering. Limited availability!
